## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Barthold et al.

Barthold et al. show a spraying device for water under pressure comprising a tubular body which defines a chamber 53 connected to a supply of water 45 under pressure, a nozzle 80 arranged at the outlet of the chamber equipped with an orifice forming an atomizer which extends from the neck of the nozzle and a constriction organ in the form of a valve 12 arranged in the orifice of the nozzle in order to form a hollow, thin-walled jet characterized in that the orifice comprises a surface shaping the hollow jet which is arranged to produce at the level of this latter an asymmetry of rotation around the ejection axis.

### ***Allowable Subject Matter***

3. Claims 2, 3, and 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***
